

## Department of Education and Interdisciplinary Studies

### Florida Institute of Technology

#### Mission Statement

Florida Institute of Technology's Department of Education and Interdisciplinary Studies shares the vision and mission of the University and the College of Science. The department is dedicated to preparing exemplary educators, scholars, and researchers in education, STEM-related subjects, sustainability, and interdisciplinary studies to advance innovative learning across disciplines and colleges. The department values the integration of theory and reflective practice, and prepares students through programs that span multiple academic areas and cultures. The department seeks to promote a robust intellectual community that is: (1) recognized for preparing excellent graduates and practitioners who are experts in their fields; (2) known for quality undergraduate and graduate teaching, research, and scholarly contributions that enhance theory and practice in education, sustainability, and interdisciplinary studies; and (3) responsive to opportunities that involve the integration of local, regional, and global initiatives.
